Dear Parents/Caregivers,

As you would be aware we will be implementing the NSW Department of Education Phases for a managed return to school from Monday May 11 2020. We are currently in Phase 0 with students learning from home and only attending school if absolutely no other choice. I would like to thank you for your great support in helping us to implement Phase 0 to ensure that we meet the guidelines from NSW Health and Department of Education. Phase 0 continues next week Monday May 4 to Friday May 8.

Attached to this email is the plan for Phase 1 which starts on Monday May 11. I encourage you to put this on the fridge so everyone knows what the plan is. From that date we have created opportunities for every student to attend school for at least one day a week. Due to the demands of the HSC we have provided an opportunity for every Year 12 subject to have one 3 hour block in which students will work directly with their teachers around assessments and major projects. We have then allocated a day for all other students based upon their year groups. In order to allow Support students to work directly with their classroom teacher and peers we have allocated a specific day for them – Support students will attend on their class day, not their year group day.

During Phase 1 the normal school timetable WILL NOT be operating. Teachers will upload all lessons for each subject by Monday morning, and students will be free to work on any subject at any time. Teachers will be monitoring that students are logging into Google classrooms and completing tasks. This decision was made in response to community feedback about shared laptops and other factors that make it hard for students to be online for full lesson lengths. All students when working from home or attending their assigned day, will be completing the work in Google classrooms and may be supervised by a range of different teachers. All assessment schedules and tasks are currently being redesigned to be done as digital tasks and more information about how we will monitor students learning will be available in the next two weeks. Students are encouraged to continue asking questions via the Google classrooms and teachers will answer them as soon as possible. Information for specific year groups will continue to be shared with students via the year based Google classrooms.

In Phase 1 students will be working in groups of approximately 10 and will stay in the same space for lesson times to minimise high touch transitions. During the break times all students will be able to mingle in various playground spaces, and supervising teachers will support students to maintain social distancing guidelines. The canteen will be operating reduced hours with limited food options and we encourage all students to bring a water bottle because communal bubblers cannot be used at this time.

Also during Phase 1 we ask that parents and caregivers avoid coming onto the school grounds where possible and if your child is sick they must stay at home. We also ask during Phase 1 that students continue learning from home when not allocated at school. You are encouraged to keep your child at home for the other four days each week. We ask that you encourage your child to go directly home after their day at school and to maintain social distancing within the community by avoiding gathering in public spaces.

We know that this is a very difficult time for all of us. We thank you in advance for following the plan for each Phase and working with us to implement the health guidelines in order to prevent the spread of Covid-19 and to keep all of us healthy and safe. If you have any questions please contact the school office and they will direct you to a member the Senior Executive for assistance.

Kind regards,

Brenda Quayle  
Principal
